THE "SITUATION" IN TENNESSEE.—W. have made but slight reference, if any, to the condition of affairs in Tennessee, and merely allude to it now as a part of the current political news of the season. The Radicals in the Legislature insistin

upon pressing the "Franchise bill," a measure which would disfranchise every person in the State who had aided the Confederate cause, the Conservative members of the lowe House-twenty-one in number-resigne thereby leaving the House without a quorum and necessitating a suspension of all legisla tive proceedings. Elections have been held to fill the vacancies, and thus far appear to have resulted generally in favor of the Con servatives; the resigned members in some cases having been re-elected, and in others successors of the same political complexion chosen, though Radicals are understood to have been elected in some instances. I was advised by my physician, Dr. Parrish, to remove into the country. Moorystown, N. J. being my native place. I was removed thither. My father and all his family had lived and died there—and died of Pulonary Consumption. On my arrival I was put to bed, where I lay for many weeks in what was deemed a hopeless condition. Dr. Thornton, who had been my father's family physician, and had attended him in his last illness, was called to see me. He thought my casentirely beyond the reach of medicine, and decided that I must die, and gave me one week to arrange my temporal affairs. During the session of two days of this court, the present week, there was but one case tried which attracted any interest, the case of the State vs. W. H. Shinpock, who was charged as having persuaded and enticed two freedmen to leave the employment of their legal employer, with the view of employing said freedmen himself. The proof against the defendant was clear, the defense was able, the charges of the court to the jury were strong and the jury brought in a verdict of guilty. The court fined the defendant \$50 and costs.—Hernando Press, 5th.

The great reason why physicians do not cure Cousumption is, that they try to do too much; they give
medicines to stop the cough, to stop the night
sweats, hectic fever, and by so doing they derange
the whole digestive system, locking up the secretions, and eventually the patient dies.

The Pulmonic Syrup is one of the most valuable
medicines known. It is untrient powerfully tonic
and healing in itself. It contains no opium, yet it
loosens the phlegm in the bronchial tubes, and nature throws it off with little exertion; one bottle
frequently cures an ordinary cold, but it will be
well first to take a dose of Schenck's Mandrake Pills
to cleanse the stomach. The Pulmonic Syrup is
readily digested and absorbed into the blood to
which it imparts its healing properties. It is one
of the best preparations of iron in use, it is a pow
erful tonic of itself; and when the Seawced Tonic
dissolves the mucus in the stomach, and is carried
off by the aid of the Mandrake Pills, a healthy flow
of gastric juice, good appetite, and a good digestion
follow of gastrie juice, good appetite, and a good di The Seaweed Tonic is a stimulant, and none other

is required when it is used. It is pure and pleasan no bad effects like when using Bourbon whisk which disorders the stomach torpovs the live locks up all the secretions, turns the blood in which disorders the stomach, torpore the liver, locks up all the secretions, turns the blood into water, dropay sets in, and the patient dies suddenly. Bourbon Whisky is recommended now-a-days by almost every physician. Many patients that visit my rooms, both male and female, are stupilled with this poison. The relief is temporary. If they cough, they take a little whisky; if they feed week and feeble, they take a little whisky; if they cannot sleep, they take a little whisky; if they cannot sleep, they take a little whisky; and they go on in this way enquiring more and more, until they are bloated up and imagine they are getting fleshy. The stomach, liver, and digestive powers are completely destroyed, and they lose their appetite for food. No one was ever cured of Consumption by this process, where cavities have been formed in the lnngs. A little stimulant is frequently beneficial to consumptives, such as pure brandy or good wines—in many cases, London porter or brown stout, in moderate quantities; but Bourbon whisky hastens on instead of enring Consumption.

The SEAWEED TONIC produces lasting results, thoroughly invigorating the stomach and digestive system, and enabling it to eliminate and make into healthy blood the food which may be used for that purpose. It is so wonderful in its effects that a wine glass full will digest a bearty meal, and a little of it taken before breakfast will give a tone to the stomach which few medicines possess the power of doing.

THE Mandrake Pills

May be taken with entire safety by all ages and conditions, producing all the good results that can be obtained from calomel, or any of the mercural medicines, and without any of their hurtful or injurious results. They carry out of the system the feculent and worn-out matters loosened and dissolved by my SEA WEED TONIC AND PULMONIC SYRUP. It will be seen that all three of my medicines are needed in most cases to cure Construction. -Agents-BARNES, WARD & CO. MEDICINE WAREHOUSE.
